Amendments To The Abstract:

In the English translation document, please add the section heading at page 15 line 1, as follows:

--ABSTRACT

Cracks are conventionally difficult to clean which often leads to damage to other regions of the component for cleaning. According to the invention, a plasma cleaning method is used, whereby a pressure and/or a separation of an electrode to the component are varied, in order to achieve a plasma cleaning in the crack.--

A clean copy of the Abstract is provided herewith on a separate sheet.
